

PROOF OF PUBLICATION

STATE OF UTAH
County of Tooele } SS.

I, JOEL J. DUNN, being first duly sworn, depose

and say that I am the Publisher of The Tooele Bulletin, a weekly news-

tube established, appear before the Board of Oil, Gas and Mining to show cause, if any there be, why this plan lay at Tooele City, Utah, should not be approved.

DATED this 22nd day of January, 1980.

part of the proof of pub-

ORDER TO SHOW CAUSE
ACT/045/010

BEFORE THE BOARD OF OIL, GAS AND MINING
DEPARTMENT OF NATURAL RESOURCES in and
for the STATE OF UTAH

IN THE MATTER OF THE APPROVAL OF THE
NOTICE OF INTENT AND RECLAMATION PLAN
SUBMITTED BY McFARLAND AND HULLINGER,
CRYSTAL MINE, TOOELE COUNTY, UTAH

STATE OF UTAH
BOARD OF OIL, GAS AND MINING
THALIA R. BUSBY
Secretary of the Board
(Published in the Tooele Bulletin January 29, 1980)

ACT/o45/010

THE STATE OF UTAH TO ALL OPERATORS,
TAKERS OF PRODUCTION, MINERAL AND
ROYALTY OWNERS, AND PARTICULARLY ALL
PERSONS INTERESTED IN TOWNSHIP 6 SOUTH,
RANGE 4 WEST, AND RANGE 3 WEST, TOOELE
COUNTY, UTAH.

Notice is hereby given that tentative approval was
given to McFarland and Hullinger by the Utah Division
of Oil, Gas and Mining to commence open pit limestone
mining on portions of Section 12, Township 6 South,
Range 4 West, and Section 7, Township 6 South, Range
3 West, Tooele County, Utah. The name of the mine is
the Crystal Mine and the persons representing the com-
pany in this matter are Messers. McFarland and Hulling-
er, Box 238, Tooele County, Utah 84074.

McFarland and Hullinger have fulfilled obligations
under the Mined Land Reclamation Act of 1975 (Section
40-8, Utah Code Annotated, 1953 as amended) and will
employ the following mining and reclamation practices
on 17.6 acres which comprise the land affected. Legal
access to the land affected is by ownership or lease of
unpatented mining claims.

During Operations:

1. Topsoil will be stockpiled and protected from
erosion for the life of the mine.
2. Blasting of rock will occur and warning signs will
be posted along the adjacent public road at each end of
the mining operation.
3. Mining will be conducted in a safe and orderly
fashion.
4. No surface facilaities or buildings will exist on-
site.

After Operations:

1. All requirements of Rule M-10 will be met except
for the two areas for which variances may be needed and
are therefore requested:

a. Highwalls of solid rock may need to be left as a
result of rock removal. However, if the gradient can be
modified to facilitate revegetating the surface, the slopes
will be modified to a lower gradient.

b. Solid rock outcrops will not be revegetated.
2. Areas between the perpendicular rock walls will
be modified to lessen gradient and retain moisture.

3. Areas disturbed at the base of the steep hill will
be regraded, topsoiled, mulched and revegetated with
acceptable species for the postmining land use.

A reclamation performance bond has been posted.

Any person or agency aggrieved by this tentative
decision is hereby requested to submit written protest
within 30 days from February 7, 1980 to the Division of
Oil, Gas and Mining, 1588 West North Temple, Salt
Lake City, Utah 84116, setting forth factual reasons for
the complaint, and thereafter, at a time and place here-

published in said newspaper for one consecutive weekly

s, the first publication having been made on the 29th day of

January, 1980, and the last on the _____

of _____, 19____, that said notice was pub-

d in the regular and entire issue of every Tuesday number

e paper during the period and time of publication, and the same

published in a newspaper proper and not in a supplement.

Joel J. Dunn

cribed and sworn to me, this 11th day of

February, A. D., 19 80.

Catherine Fern
